As your trusted laboratory partner for consumables, equipment, and high-end analytical solutions, here's what we bring to the table.

Responsive Service & Customer Support

Comprehensive Portfolio With Trusted Brands

Reliable Delivery Timelines

30+ Years of Credibility

About Us

For over three decades, Agarwal Brothers has been a trusted cornerstone in fulfilling the diverse laboratory requirements of industrial, academic, research, healthcare, and institutional clients.

As a leading distributor of laboratory consumables, advanced equipment, and capital instruments, we believe that **trust begins with understanding**. Our strength lies in identifying the right solution for each application, ensuring that our customers receive products that truly meet their technical, operational, and regulatory needs.

We see our clients as long-term partners. By combining technical understanding with reliable execution and responsive support, we strive to build relationships that stand the test of time.

Partnerships

We proudly deal in renowned brands such as Thermo Fisher Scientific, Sartorius, BRAND GmbH, Borosil, Horiba, LabIndia, and several other trusted names, offering solutions across:

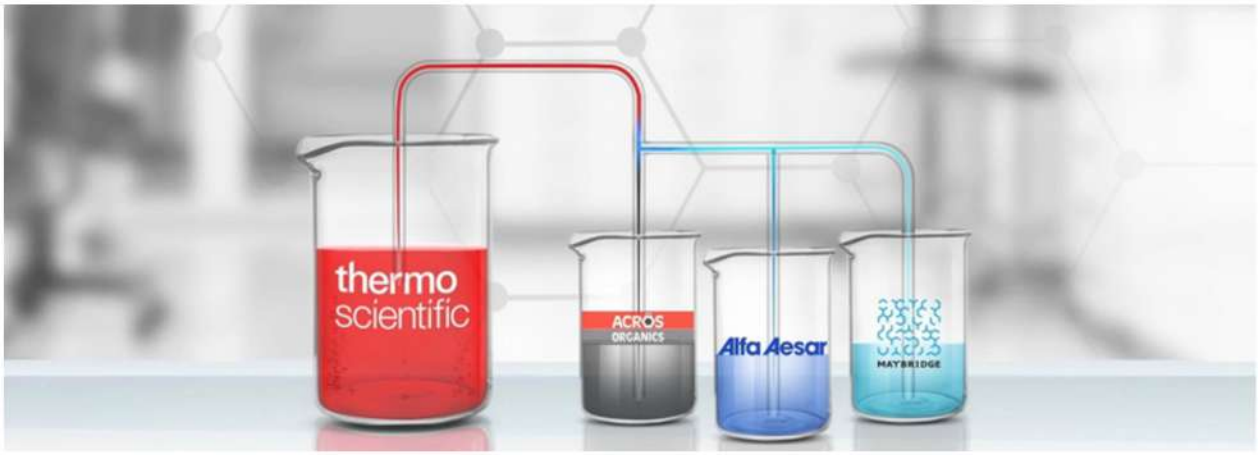

Consumables

|Chemicals | Glassware | Plasticware | Filtration | Microbiology & Cell Culture | Liquid Handling
|Safety & PPE | Food & Environmental Testing Kits | General Lab Consumables

Equipments

|Sample Preparation |Heating & Cooling |Weighing & Measurement |Separation & Centrifugation
|R&D Synthestis |Laboratory Support |Filtration & Water Purification |Electrochemical Analysis
|Chromatography & Spectroscopy |Thermal Analysis & Material Characterization
|Optical & Imaging|Microbiology & Life Science |Elemental & Combustion Analysis |Physical & Electrical

Thermofisher Scientific is a global leader offering high-quality research, production, and custom chemicals and reagents for organic, inorganic, analytical, life science, and material applications under brand names **Qualigens, Alfa Aesar, Across Organics & Fisher Scientific.**

Products

Qualigens - General Chemicals, Solvents & Reagents Manufactured In India

CertiQ™ - Traceable & Cost-Effective SRMs

AcroSeal® - Specialized packaging for air- and moisture-sensitive chemicals

Puratronic® - ultra-high-purity metals, inorganic salts, and materials for electronics, semiconductors, and advanced materials research

Premion® - high-purity precious metal compounds and catalysts for chemical synthesis, catalysis research, and industrial applications

Ultradry® - exceptionally low-moisture solvents and reagents

Reacton® - high-purity rare earths, metals, alloys, and advanced materials for energy, electronics, and specialty material sciences

Specpure® - certified elemental standards and high-purity reagents for trace and ultra-trace analysis

Thermofisher Scientific also offers a broad range of everyday laboratory consumables including plasticware, glassware, sample handling products, and lab essentials designed for consistent performance across applications.

Products

Liquid Handling Consumable - Finpipette, Tips, Racks & MCTs, Cryo Vials, Syringes & Syringe Filters etc.

Personal & Environmental Protection Consumables - Apparel, Gloves, Disinfectants etc.

nalgene
MADE IN USA

Nalgene™ - Laboratory plasticware of high quality laboratory-grade plastic resin materials including Cryo-Ware, Containers, Filtration & Centrifugation Consumables

Nunc™ cell culture products including culture tubes, dishes, plates & flasks etc.

Equipment - General Benchtop Equipments including Rockers, Rotators, Mixers, Drybaths, Block Heaters, Stirrers

Gel Electrophoresis Systems & Consumables

We have been associated with Thermo Fisher Scientific for over 30 years. This long-standing partnership gives us a distinct advantage through in-depth product understanding, reliable supply continuity, and strong technical and service support—enabling us to deliver consistent value to our customers. **We also supply the following brands at good prices:**

MERCK TCI MOLYCHEM LOBA Chemie Avra

SISCO RESEARCH LABORATORIES PVT. LTD.

Sisco Research Laboratories Pvt. Ltd. (SRL) is a leading Indian manufacturer of high-quality laboratory chemicals, reagents, biochemicals, culture media, specialty fine chemicals, and molecular biology products. SRL's extensive product portfolio includes general laboratory chemicals and solvents, bioreagents and biochemicals, nanomaterials, dehydrated culture media, DNA & protein tools under its BioLit™ range, and laboratory accessories.

SRL manufactures its products under stringent quality systems with ISO, FDA, cGMP, NABL, and CE certifications, ensuring consistency, reliability, and international standards compliance.

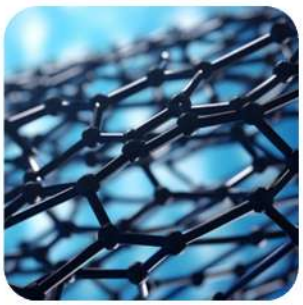

Products

(Part A & B) Research & Laboratory Chemicals - Includes Pharmacopoeial Grade Products, PrimeDx Diagnostic Raw Material

(Part B1) Animal Cell Culture

(Part C) Nanopowders & Carbon Nanotubes (CNTs)

(Part D) Dehydrated Culture Media Products

(Part E) BioLit DNA & Protein Tools and Kits

(Part L) Laboratory Accessories

Cambridge Isotope Laboratories, Inc.

Cambridge Isotope Laboratories, Inc. is the world leader in stable isotope chemistry, specializing in the separation and manufacture of stable (non-radioactive) isotopes and stable isotope-labeled compounds used in scientific research, analytical applications, diagnostics, pharmaceutical development, and advanced technologies.

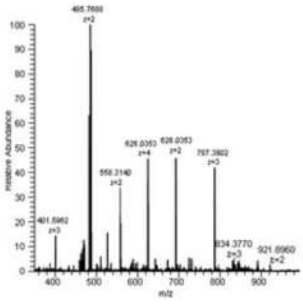

With a diverse portfolio of thousands of products, Cambridge Isotope supports applications in metabolomics, proteomics, drug metabolism studies, environmental analysis, clinical diagnostics, and high-technology fields such as OLED and quantum materials—making it a trusted partner for laboratories pushing the boundaries of science and innovation.

Products

Stable Isotopes & Isotope-Labeled Compounds

Mass Spectrometry & Metabolomics Standards

Deuterated Solvents & NMR Reagents

Key Metabolite Standards

Environmental & Contaminant Reference Standards

Custom Synthesis & New Products

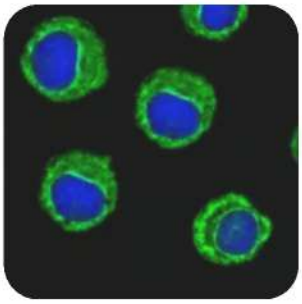

Everyone Included, Everything Achieved

ATCC is a nonprofit, global biological resource center and standards organization that has supported life science research for nearly a century. Founded in 1925, ATCC is headquartered in Manassas, Virginia, USA, and is recognized as the world's largest and most diverse repository of authenticated biological materials for scientific research and development.

ATCC provides scientists and laboratories worldwide with **reference-quality cell lines, microorganisms, molecular genomics tools, nucleic acids, and other biological materials for variety of applications**, all maintained under strict quality standards and authentication procedures.

HiMedia Laboratories Pvt. Ltd. is a globally recognised Indian-origin bioscience company and one of the top brands in microbiology worldwide. HiMedia has expanded far beyond microbiology media into molecular biology, animal cell culture, plant tissue culture, diagnostics and advanced laboratory chemicals, supported by state-of-the-art R&D and technical service. Its product range now includes tens of thousands of SKUs for academic, clinical, industrial, food, environmental, pharmaceutical and biopharmaceutical laboratories.

Products

Microbiology Consumable - Dehydrated & Ready Prepared Media, Media Supplement Systems, Anti-Microbial Susceptibility Systems & More

Cell Biology Consumable - Cell Culture Platforms, BioProduction & Vaccine Media, Viral Transport System, Sera, Cell Analysis Tools & More

Molecular Biology Consumable - Nucleic Acid Purification Kits, PCR Kits & Reagents, Sequencing & Bioinformatics Tools, Lateral Flow & Nanotech Tools & More

Lab Chemicals & BioChemicals - General and specialty reagents, buffers, acids, bases, salts and biochemical compounds used across experiments and workflows.

Molecular & Microbiology Instruments - Incubators, Air Samplers, Bioreactors, PCR Workstations, Automated Nucleic Acid Extractors, Sterility Testing Systems, UV Transilluminator, Colony Counters, Antimicrobial Systems & Zone Scales, Microbial Culture & Innoculation Aids & More

RAKIRO

Rakiro Biotech Systems is an Indian manufacturer and supplier of testing, measurement and water treatment solutions with a strong focus on easy-to-use analytical and microbiological testing systems for industrial and laboratory applications.

Products

AQUASOL
Analyzing Waters
Anytime... Anywhere...

Testing Kits

Water testing kits for various chemical & biological parameters under Aquasol & ChekNsee series

UDAAQ
Food Grade Boiler Water Treatment Chemicals

Industrial & process water treatment chemicals under UDAAQ brand including boiler treatment, cooling tower, solid fuel additives, RO treatment, cane sugar process & other specialty chemicals

AQUASOL DIGITAL
Bench Top Meters

Aquasol Digital table top, bench top & portable meters and online meters for pH, ORP, conductivity, TDS and other parameters.

AQUASOL DIGITAL
HandHeld Meters

Aquasol Digital Laboratory & Industrial Electrodes

AQUASOL DIGITAL
Standard Solutions

BOROSIL®

Borosil's reputation is built on its precision-engineered borosilicate glassware — known for chemical and thermal durability — and its growing range of lab instruments (Labquest) and scientific solutions that support R&D, quality control, pharmaceutical development, industrial testing, and academic research.

Products

Laboratory Glassware & Consumables including volumetric ware, bottles & caps, beakers, flasks, test tubes, condensers, quartz & sintered ware

USP Type I tubular glass vials, ampoules and analytical vials for drug formulation and injectable packaging

Laboratory Instrumentation (LabQuest) including Kjeldahl digesters, reactors, and other analytical instruments

Glass & SS Filtration Assemblies, Manifold, Vacuum Filtration Equipment and Consumables

SCHOTT DURAN® Glassware Available With Us

DURAN® borosilicate glass 3.3 offers excellent thermal shock resistance, low thermal expansion, high hydrolytic stability, and superior chemical inertness

DURAN®

supertek®

Riviera

ABDOS

Abdos Life Sciences is ISO 9001:2015 and ISO 13485:2016 certified, with CE marking and IVD certification on select products, reflecting its commitment to international quality standards. Its portfolio spans hundreds of products, from essential consumables to specialized instruments, designed for reliability, accuracy, and reproducible results across life science workflows.

BRAND GmbH + Co. KG (commonly known as BRAND) is a premium German manufacturer of laboratory equipment and supplies, with a heritage spanning over 70 years in developing precision instruments and consumables for scientific laboratories worldwide. BRAND focuses on solutions that make laboratory workflows simple, efficient and reliable for professionals in life sciences, pharmaceuticals, chemistry, biotechnology, clinical diagnostics and process analytics.

Products — Liquid Handling Solutions

High-quality micropipettes designed for precise and reliable liquid handling.

- **Minimal Effort:** Genuine One-Hand Operation, Adjustable Finger Rest & Smoothest Volume Change
- **Durable:** PEEK Pistons, Individually Replaceable Nose Cones

Dispensette® S and Dispensette® S Organic bottle-top dispenser makes it easy, safe and efficient for a **wide range of media.**

- **Tantallum & platinum-iridium** valve springs
- **Callibrated to deliver** - Accurace < 0.5%
- Dispenser based on your reagent needs - **Dispenser Selection Chart** available on website
- **Easy Callibration Technology**

Titrette® stands out for easy titration, a compact design, excellent precision, an exchangeable dosing unit, and an optional PC interface.

- First bottle-top burette to **meet class A error limits** for glass burettes. (DIN EN ISO 385, ASTM 287)
- **Chemically resistant materials:** borosilicate glass, Al2O3, ETFE, PFA, FEP, PTFE, **platinum-iridium;** PP (screw cap)

Pipetting Aids & Controllers

- Pipette Controllers
- Pipette Leak Testing Units
- Tips & Other Consumables
- Positive Displacement Pipettes

BRAND is the **Liquid Handling Company**

Explore **PRECISION, QUALITY & ACCURACY** With Us

Repetitive pipettes HandyStep® touch

Repetitive pipettes are the first choice when it comes to efficient dispensing of long series. Positive displacement pipettes are often the right solution for pipetting viscous media. The new stepper HandyStep® touch from BRAND combines both features.

- Automatically recognizes the volume of the new **BRAND PD- Tips II**.
- Inductive charging stand for easy & efficient charging.
- Touchscreen operation with intuitive menu navigation.
- Automatic tip ejection.
- Variable volume adjustment from 1.0 µl to 50 ml.
- Viscosity: At 50 ml PD-Tip: 20 mPa s; at 5 ml PD-Tip: 260 mPa s; at 1,25 ml PD-Tip: 977 mPa s

Request a product demo to know more. Scan the QR code for product experience video.

HandyStep®

Pipetting Robot

Pipetting robot Liquid Handling Station

Bridge the gap between manual single- and multi-channel pipettes and complex large devices. The Liquid Handling Station pipetting robot handles all your pipetting routines, leaving you more time for other work.

- **Unmatched Reproducibility:** Ensures identical liquid handling across thousands of samples
  - Replication of microtiter plates (96/96 and 384/384)
  - Reformatting of plates (96/384 and 384/96)
  - Serial dilutions
- **Compact Cleanroom In Lab:** Four minutes afer switching on the **FlowBox**, no particles of 0.5 µm, 0.7 µm,1 µm, 3 µm and 5 µm are detectable inside
- **Saves Time & Cost:** You save up to 70% time compared with manual pipettes.
  - Runs unattended, including overnight
  - Frees skilled manpower for higher-value tasks
- **Intuitive Software:** Focus on pipetting & not programming with predefined liquid properties, disposable item database, automatic logging of procedures, 3D simulation of the programmed methods & more

Products Life Science Consumables & Research Grade Labware

BRAND's life science consumables are designed to support high-precision laboratory workflows with products that meet stringent quality, cleanliness and performance criteria — trusted in research, clinical diagnostics, molecular biology, cell culture and more.

MCTs | PCR Consumables | Sample Storage | Microplates & Multiwell Plates
Sealing Films | Cell Culture Inserts | Cuvettes | Media Bottles

BIO-CERT® QUALITY

- Free of human DNA, RNase, DNase, Pyrogens and PCR-Inhibitors
- Manufactured in validated cleanrooms (ISO 14644-1 classes)
- Sterile and certified to standardized methods (e.g., ISO, AAMI)
- Virgin raw materials

Volumetric Instruments & General Lab Products

- **BLAUBRAND®** individually adjusted and calibrated volumetric labware available with individual certificates or DAkkS calibration certificate.
- Long-lasting, **high-quality materials** including
  - Type 1 Borosilicate Glass
  - High Grade PP, PE, PET etc.
  - Fluoropolymers (PTFE, FEP), Silicone & EPDM Elastomers & Optical-Grade Plastics (e.g., PMMA)

Products VACUUBRAND Products

The product range comprises **oil-free diaphragm pumps, oil-free screw pumps, rotary vane pumps, complete vacuum pumping units, flexible vacuum systems** and solutions for local area networks in laboratories (VACUU·LAN®).

Diaphragm Pumps

Fluid Aspiration System

Rotary Vane Pumps

SARTORIUS

Sartorius is a leading global provider of laboratory instruments, consumables and bioprocess technologies, headquartered in Göttingen, Germany with a history dating back to 1870. The company is recognised worldwide for its innovative solutions that support life science research, quality control and biopharmaceutical manufacturing—helping scientists translate discoveries into effective therapies and medicines.

Products — Filtration & Separation

Filter Papers

Membrane Filters & Filter Holders

Extraction Thimbles

Glass & Quartz Microfiber Filters

Pressure Filters

Sterile Filtration Solutions, Syringe & Syringeless Filters

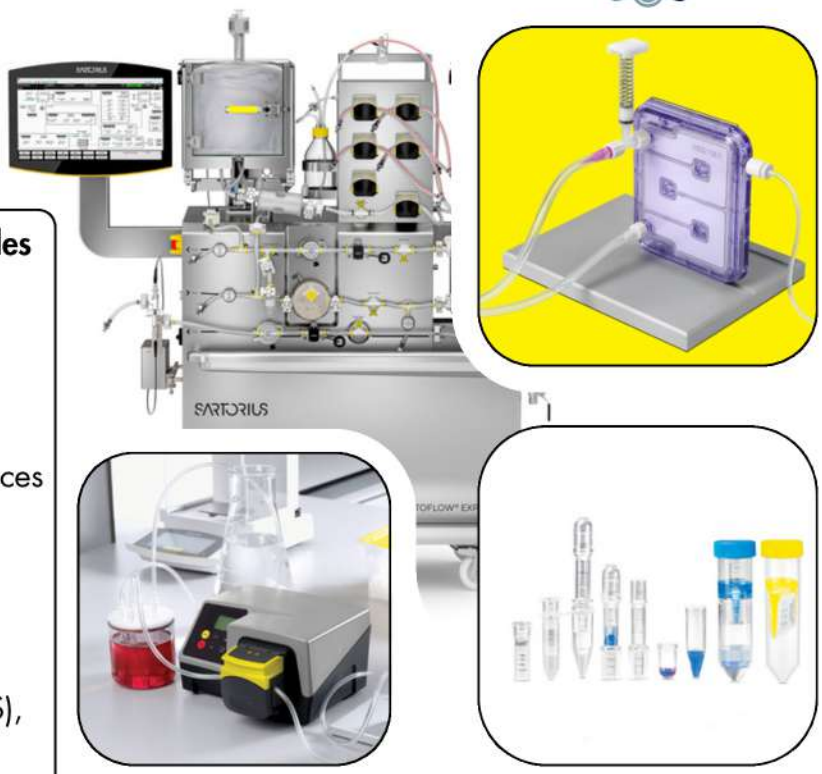

Ultrafiltration Solutions - Centrifugal Filters, Lab & Process TFF

Filtration Devices - Vacuum Filtration, Ultrafiltration, Pressure Filtration, Manifolds & Holders

FREE Samples Available – Sartorius Filter Papers. Experience the quality before you decide.

Ultrafiltration & Diafiltration Consumables

- **Vivaspin®** & **Vivacon®** Centrifugal Concentrators
- **Vivaflow®** TFF Cassettes
- **Vivapore®** Solvent Absorption Devices
- **Vivaclear®** Disposable Centrifugal Microfilters
- **UF Membrane Discs** with variety of membrance MOCs - Polystyrene (PS), Styrene Acrylonitrile (SAN), Polyethylene (PE), Cellulose Triacetate (CTA), Polyethersulfone (PES)

Sartolab® RF | BT Vacuum Filtration Units

Convenient vacuum filtration units designed for research purposes for the vacuum filtration of small volumes (50 mL to 1 L)

Sartolab® Multistation - for Parallel Filtration of up to 6 Samples

Sartobind® Lab Chromatography Solutions

- **IEX Chromatography Solutions**
  - Sartobind® IEX ready-to-use membrane adsorber devices
  - Vivapure® IEX spin-column ion exchange devices
- **Affinity Chromatography Solutions**
  - Sartobind® Rapid A Lab protein A affinity membrane
  - Sartobind® IDA Lab metal affinity membrane
- Vivapure® Adenopack & Vivapure® Lentiselect **virus purification & concentration kits** to capture, purify, and concentrate adenovirus & lentivirus.

Sterile Filtration Solutions

Minisart® Syringe Filters with acrylic housing (MBS) perfect for sterile filtration and clarification of additives, buffers, reagents, drugs and gases.

Claristep® Syringeless Filtration Products

- Up to 8 samples can be processed simultaneously
- No syringes required
- No need for vacuum source or power supply
- For low sample volumes from 60 ul to 600 ul

Sartolab® P20 Pressure Filter Units for general laboratory use like the clarification and sterile filtration of media and aqueous solutions in batches from 100 mL to 10 L.

- Highest flow rates with a large surface of filtration (20 cm^2)
- No loss of protein with a low-binding membrane
- Low hold-up volume due to optimized membrane support
- Versions available with a prefilter for high particle load solutions
